Contribution of PE Industry to economy

In order to counter some negative perceptions in the market about private equity / buyouts, HKVCA plans to embark on promotion of the industry's role in helping companies grow, its contribution to domestic economy, raising the standards of corporate governance and culture in the market.

As a first step, HKVCA would be conducting a survey of its membership. The purpose is to gather information on portfolio companies so that research can be done on the performance of these companies

relative to non-PE invested peers. The survey would be sent to members shortly.

We urge all members to complete the survey in order we can help the industry and your firm project its work of creating value in the companies and in the overall economy.

New Members Welcome

Associate Member

Charltons

Representative: Ms. Julia Charlton

Charltons is a Hong Kong firm of solicitors in advising international businesses and institutions on investments in China, both in listed and unlisted companies. The firm has also advised on a number of global offerings by Chinese companies seeking international capital in world markets.

Stolzenberg & Associates
