

Seminar on "The Alternative Investment Market for Chinese Companies and Investors", November 21, 2006

The seminar organized by HKVCA with the support of British Consulate-General attracted an unexpectedly large turnout of 135 at the Conrad Hotel. The audience ranged from venture capitalists and private equity practitioners, portfolio companies, local and Chinese enterprises. The long question-and-answer session and interaction reflected the high level of interest in this market.

The British Consulate-General graciously hosted cocktails after the seminar.
