#### Speakers:

**James Ford**, Partner, O'Melveny & Myers LLP

James Ford is a partner in O'Melveny's Hong Kong office and a member of the Investment Funds Practice within the Transactions Department. He has a wide range of experience in private equity and venture capital transactions, including traditional fundraisings, secondary transactions, M&A, strategic investments and capital markets transactions. Prior to relocating to Hong Kong, James was a partner in O'Melveny's London office.

James is recognised as a Leading Lawyer by the industry's most prestigious legal publications including *Chambers Asia*, *Chambers UK*, *Legal 500* and *IFLR1000*. He is particularly praised for his work within the secondary transactions market and is described by clients as “a great negotiator with a proven ability to get things done” who also praised his “commercial awareness and attention to detail”.

**Angelica Kwan**, US Tax Partner, PricewaterhouseCoopers Limited

Angelica Kwan is a US tax partner of PricewaterhouseCoopers Hong Kong. Angelica returned to Asia in 2011 after having advised private equity, hedge and other funds, financial institutions and multi-national corporations as a US tax lawyer in New York for 15 years. She was a US tax partner at Sidley Austin in New York. Angelica has worked extensively in fund formation, portfolio company acquisition and trades for private equity and other funds, as well as with sovereign wealth funds and other institutional investors. She brings substantial cross-border and partnership tax experience. Her team is a resource for US tax structuring, US tax compliance and M&A tax due diligence. Angelica has advised extensively on FATCA across a range of affected industries, including asset management. She is a frequent FATCA speaker for the Hong Kong Institute of Bankers, and is part of the HK Joint Industry FATCA Working Group formed by the HK Investment Funds Association, the HK Trustees' Association and the HK Federation of Insurers. Angelica has a JD from Harvard Law, and an MBA from Stanford.
